

FAROUDJA TONER

299 Old County Road
Building 27
San Carlos, CA 94070
Tel: (650) 593-3862
Fax: (650) 593-3817

Dear Valued Customer,

Thank you for your interest in Faroudja Toner!

Our industry continues to face an ever-growing succession of challenges, and we are committed to responding to the needs of all our clients. As you'll see from our catalog, we offer a wide range of new products with a particular focus on color toners (especially Okidata, HP, and Xerox Phaser); creams & coatings for drums, blades, mags and pcars; and hard-to-get items and components.

Our team is continually working on the development of products to satisfy the need for technologically advanced, reliable and economic solutions. Now, as in the past, our focus remains on the customer and providing quality toners and parts that perform consistently well.

Thank you again for your support,

Phil Faroudja

President

Do you have problems with your toner? Questions? Deep rooted concerns? Our technical staff can help! By sending an email to 'askmr.toner@faroudjatoner.com', you'll receive an answer within a day or less. Below, see some previous queries, and answers.

*Dear Mr. Toner,
I head the QMS 2400 is somehow different from the other QMS toners -- true?*
--Julia Redfern, Gallup, NM

Mr. Toner's Answer...

Yes Julia, that is true. The 2400 requires a smartchip for each cartridge, which is a first for the QMS series of printers. Of all the QMS toners we carry -- the 2200, 2300, 2400 & 6100 -- the 2400 is the only one that requires a chip set.

*Dear Mr. Toner,
I am interested in Dell color toners -- is this something you supply? Are they the same as Lexmark toners?*
--Chuck Masterson, Pacific Grove, CA

Mr. Toner's Answer...

We have one Dell color, and that's the 3100 (which also works for the Dell 3000). While it's true that some black Dell cartridges are essentially Lexmark engines, we have not found this to be the case with the Dell color toners. They are completely different from Lexmarks such as the C 510 and C 710. For example, the Dell 3100 has carrier in it, and no Lexmark color cartridge uses carrier as far as we know.
